Inside the Cunning, Unprecedented Hack of Ukraine's Power Grid

The hack on Ukraine's power grid was a first-of-its-kind attack that sets an ominous precedent for the security of power grids everywhere.

Russian military was behind 'NotPetya' cyberattack in Ukraine, CIA concludes

The New York Times

Cyberattack Forces a Shutdown of a Top U.S. Pipeline

The operator, Colonial Pipeline, said it had halted systems for its 5,500 miles of pipeline after being hit by a ransomware attack.

Cyber-attack on Hydro

Hydro became victim of an extensive cyber-attack in the early hours of Tuesday, March 19, 2019, impacting operations in several of the company's business areas.

How do we stop it?

SweGRIDS

- Cyber attacks are likely to become more common
- Build a strong security foundation and keep innovating
 - Ethical hacking
 - Threat modeling
